

### Eaton House Belgravia Refurbishment

▲ Rewiring – As part of our on-going maintenance and development of the school, we have completely re-wired the buildings and also upgraded the incoming mains supply to allow for future additions to our electronic equipment.

▲ All bathrooms – We have redecorated every loo throughout the buildings, a complicated operation when you can't actually empty the rooms!

▲▼ Office floor – We emptied the entire office floor, redecorated it completely and then replaced the old carpets.

▲ Kitchens – The old ovens have been replaced with state of the art electric ovens

▲ Dining Room – The boys' dining rooms have been brightened up with a fresh coat of paint.

◀▲ 4 classrooms – This summer we redecorated a large number of classrooms, equipped them with new furniture and polished our lovely timber floors to a mirror shine.

## EATON HOUSE THE MANOR NURSERY

▲ General – The entire Nursery was packed up and the maintenance team replaced a number of fixtures including the old skylights.

▶ Computers – We have utilised some of the computers removed from the Pre-Prep to provide the Nursery with their own ICT space.

◀ Playground – We have fenced off an area outside the Blue Room and laid safety surfacing. This will provide the Blue Room with an outdoor freeflow classroom space.

## EATON HOUSE THE MANOR PRE-PREP

▲ ICT Lab – keeping up with the developments in technology we stripped the entire ICT lab out and have replaced it with new desks and computers.

▶ Roofs – In preparation for the installation of our solar panels in October, we replaced a large proportion of the Pre-Prep flat roofs.

◀ Year 1 – We stripped the Year 1 classrooms right back to bare floors, redecorating, laying new flooring and installing new furniture. The old floors proved to be very tough to remove, taking numerous days and knuckles before finally being completed.

## EATON HOUSE GIRLS' SCHOOL

◀ Playground – As the Girls' school continues to fill we have extended their playground, taking in an area previously used for maintenance storage.

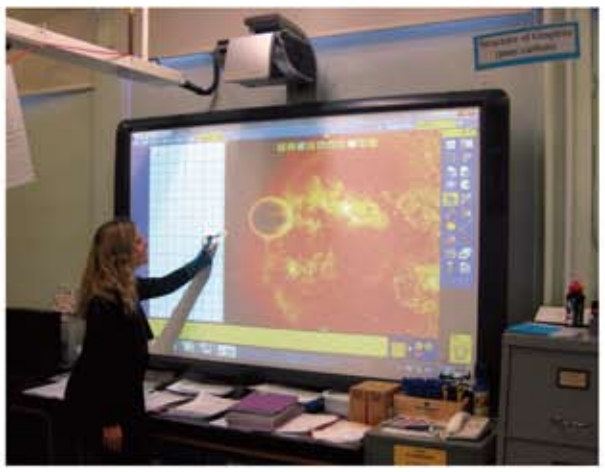

# Eaton House The Manor Schools' Refurbishment

## EATON HOUSE THE MANOR PREP

▲ Year 4 – We packed the classrooms and stripped back the old flooring. To our surprise it revealed a gorgeous parquet floor, but as there wasn't enough time to repair this, it has been carefully protected and covered, with the intention to repair and reinstate this later.

▲ Interactive whiteboards – This summer we have replaced five of our interactive whiteboards. Generally these have been upgrades and in the Science and DT labs we have moved to state-of-the-art, two person touch-sensitive boards.

▲ Year 5 – The Year 5 classrooms were packed away into the music rooms while we stripped the rooms, redecorated and replaced the flooring.

◀ ICT lab – We have replaced all the hardware and server in the ICT lab, thereby ensuring that our equipment remains at the leading edge of technology.

◀ Year 4 Cloakrooms – Following the re-wiring last summer we have now boxed in the pipe work in the cloakrooms, redecorated and replaced the flooring.

## GENERAL IMPROVEMENTS

Ovens – The old ovens in the Manor kitchens have been replaced with the latest electric ovens. These are incredibly fuel efficient and have the lowest CO2 emissions in the market, allowing us to continue to provide our usual high standard of catering while also reducing our carbon footprint.

Alongside all the other works we have continued our normal maintenance works throughout the whole site.

# Eaton House The Vale Refurbishment

◀ Classroom swaps – As the Vale goes from strength to strength we have had to move all the year groups around in order to provide better space for the ever expanding classes.

▶ Rewiring – As part of our on-going maintenance programme the school has been rewired throughout.

F1 refurbishment – The old Music Room was totally gutted. We then fully re-decorated, laid brand new flooring and equipped it with a state of the art interactive whiteboard.

▲ School Hall – The large School Hall on the 1st floor underwent a redecoration and the gym equipment was upgraded.

▲ F2 refurbishment – The Form 2 classroom has been completely redecorated and refurbished and over the October half term it will have new flooring laid.

## THE EATON HOUSE GROUP OF SCHOOLS IN PURSUIT OF EXCELLENCE
