

EATON HOUSE BELGRAVIA  
PREPARATORY SCHOOL

# PREPARATION FOR LIFE

At Eaton House Belgravia Preparatory School we are preparing boys for their future. We aim to open their eyes to the world in which they live, provide them with skills to navigate their future successfully, enable them to adapt to change positively, work collaboratively but be able to express their principles formed through personal research and discovery, whilst ensuring the highest levels of academic achievement possible. Located in London, with access to the world's best museums, colleges and sports facilities, Eaton House Belgravia Preparatory School will provide your son with the best education possible, empowering him to reach his next destination successfully.

*Alan May*

Eaton House Belgravia Prep School opens in September 2017. This means that the pictures that you will see in this prospectus are for illustration only. They depict our long-established sister Preparatory School, Eaton House the Manor in Clapham Common.

# A PLACE TO FLOURISH

# TRADITIONAL VALUES, FORWARD THINKING

---

We aim to ensure that every boy fulfils his potential academically

We encourage boys to excel in their studies and develop into well-rounded young men, respectful of each other and aware of their responsibilities in a challenging world

The form teacher takes special responsibility for their boys' welfare and is the main channel of communication between school and parents

---

HEART AND  
HAPPINESS

# HAPPY MINDS, HAPPY CHILDREN

---

Pastoral care is fully integrated through the teaching, learning and structural organisation of the school, effectively meeting the needs of the boys

Pastoral care helps boys develop positive self-esteem, healthy risk taking, goal setting and negotiation, enhancing their resilience and developing a sense of social cohesion

Quality pastoral care focuses on the whole boy - personal, social, and academic development

---

THE FUTURE  
BEGINS HERE

# A CURRICULUM FOR LIFE

---

We want our boys to enjoy their education. The best way to achieve this is to provide stimulating, challenging lessons and pastoral care second to none

We encourage boys to think for themselves, engage fully in class discussions and take pride in their work. We foster a love of learning in all our pupils

Individual learning plans enable boys to reach their potential. Future targets ensure the boys remain challenged academically throughout their time with us

---

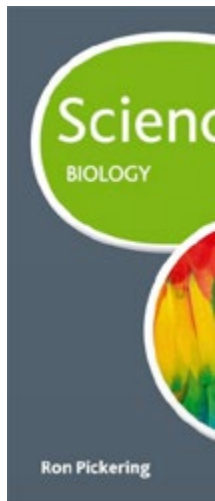

# BESPOKE TEACHING PROGRAMMES

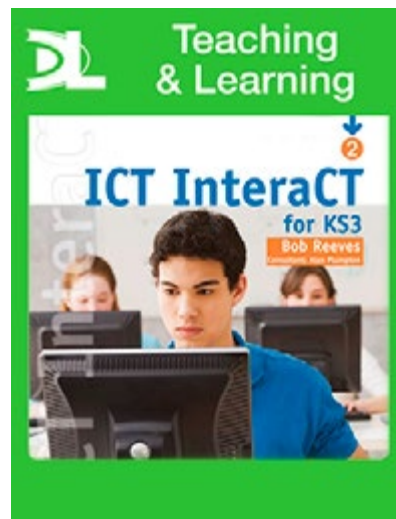

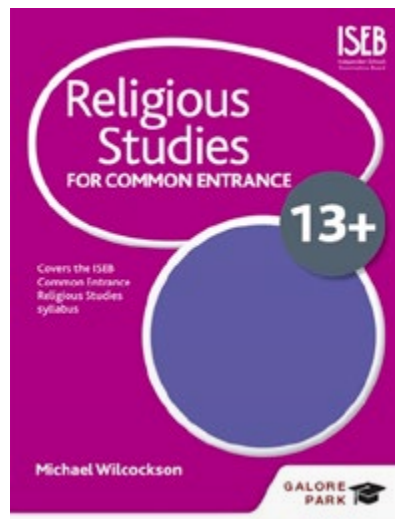

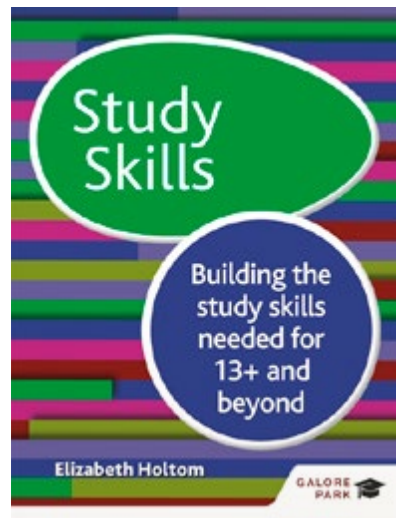

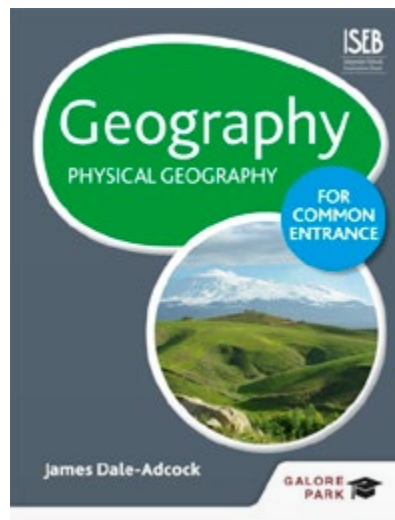

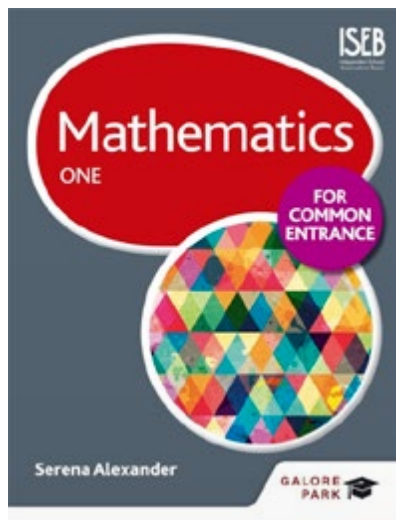

---

To enhance our curriculum we have developed links with the Natural History Museum, the Science Museum, the Royal College of Music and the Royal College of Art. Bespoke teaching programmes using the colleges and museums' resources and staff will be tailored around the needs of the boys, to bring their learning to life

---

LIFE IS ABOUT  
TIMING

# PLAY WITH PASSION

---

Games are played at the local facilities. Football, rugby and cricket are the main team sports and boys have swimming lessons at the local pool

There are also opportunities for boys to experience other sports including fencing, rock climbing, judo and futsal

Each term, there is a full programme of inter-school and inter-house fixtures, which allows every boy in the school the opportunity to develop his sporting skills

---

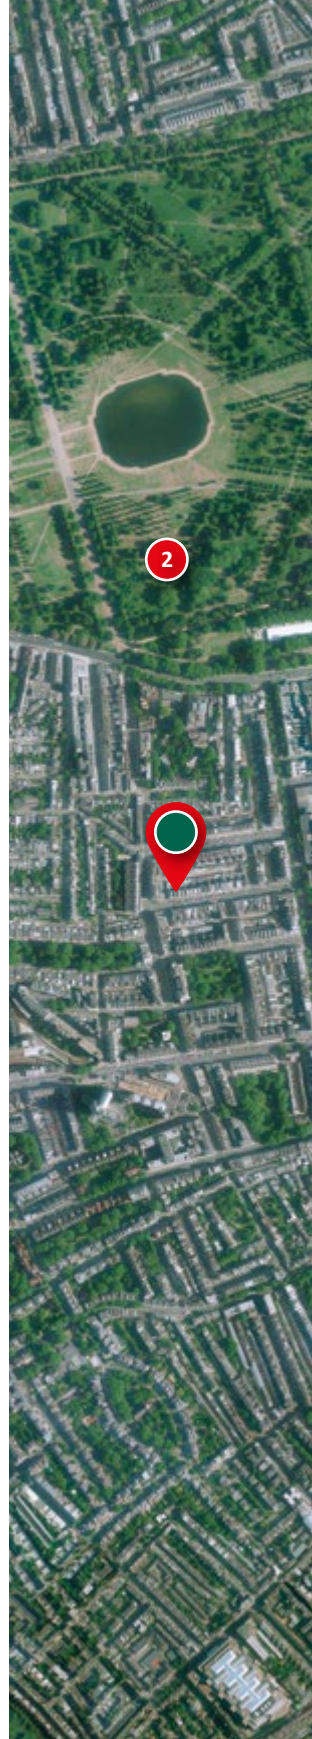

# THE INTEGRITY OF THE GAME IS EVERYTHING

---

Sports Venues and what we do at them:

- 1 Ethos Sports Centre - Imperial College**  
Climbing Wall, Archery, PE & Sports Skills,  
Short Tennis, Table Tennis, 5-A-Side Football,

# SHINE FROM WITHIN

# LET THE IDEAS FLOW

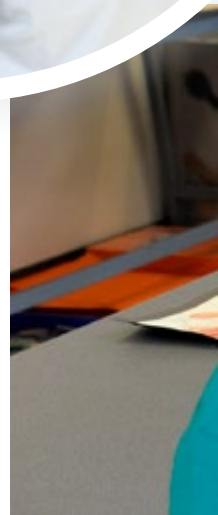

---

Opportunity for music making  
is available through choirs,  
ensembles and individual lessons

Topics covered in music lessons are  
supported by The Royal College of  
Music which is working with us to develop  
the boys' singing and performance skills  
through a commissioned opera

The school has a superbly resourced DT and  
Art room and we are supported by The Royal  
College of Art in our work with artists and  
designers. This will help the boys explore the  
process of taking inspiration from objects  
to develop creative thinking and making skills

---

AN ADVENTURE  
AWAITS

# A JOURNEY OF DISCOVERY

---

We understand the importance of a wealth of activities and challenges for boys and offer a number of unusual and interesting clubs and societies covering a wide range of interests

The weekly Debating Club forms the basis for the House Debating Competition attended by parents who make contributions from the floor

Extra-curricular activities are important because they develop the boys' wider interests, stimulate their intellects and provide them with purposeful leisure pursuits

---

# IMAGINE, BELIEVE, ACHIEVE

This is a sample of the clubs we run at our long-established sister Prep school. As the school grows, we will see the development of yet more exciting after-school opportunities for the boys, tailored specifically to their interests and activities

CHESS

BASKETBALL

DEBATING

FENCING

CODING

COOKERY

FOOTBALL

AIKIDO

SPANISH

TENNIS

PUZZLES

# REFRESH AND REVIVE

Filing

Tuna Mayo

GF CHICKEN

REVIVE PASTA

BACON & TOMATO  
PORK PASTA

# HEALTHY BODY, HEALTHY MIND

---

We know eating well is important to functioning at our best during each day and for our long-term well-being

We serve a good range of healthy foods for all tastes and needs. We also cater for boys with food allergies or dietary requirements

Our dining room is designed to make lunch an extension of our learning, where social skills are developed, friendships made and memories formed

---

WE ARE  
HAPPY
