'All of the boys have worked incredibly hard to achieve such wonderful results this year'

All of the boys have worked incredibly hard this year and, as a result, we are pleased to announce that they were offered some 16 coveted places in the 7+ and 8+ exams to Westminster Under, St Paul's Boys' School and King's College, Wimbledon, together with places at a range of other top schools.

Our passionate and dedicated teaching staff are owed as much credit as the boys themselves, as it takes infinite time, care and patience to motivate and challenge each individual boy to maximise his talents when exam time comes around. Well done to all!

I have always believed the boys' success is inextricably linked to an inner confidence that is built up over years, incrementally, and with due care.

The happy environment that we provide for our boys ensures that they build on their successes step by step. They love school and they love to learn. The rest inevitably follows.

This point was made very

clearly during a conversation with a prospective parent. As we wrapped up our meeting, she said: "I heard that the boys skip into Eaton House Belgravia." That moment was incredibly special to me because it perfectly captured what we work so hard to achieve - a school where a gold standard of wellbeing leads to happy outcomes for all.

In future, we plan to build on this outstanding legacy using our new facilities of an Innovation Centre and a Podcast Studio. They allow us to continue to deliver a strong academic core whilst providing our pupils with modern and dynamic spaces that foster meaningful and purposeful learning experiences.

This approach will not only enhance academic attainment, but will also develop the boys' leadership, communication, problem solving and soft skills - ensuring that they move on as well-rounded, high-achieving and respectful young men, ready to thrive in the next stage of their education.

Mr Ross Montague
Headmaster

Leavers' Thoughts

I loved everything at EHB

Jason, 2C

The best thing about school is that I have lots of good friends and I will miss all of my teachers. I feel sad to be moving because I will miss Miss Emma and all my friends and teachers.

Adeonai, 2A

The best thing about Eaton House is maths, ICT and break. I will miss all of the lessons because they are all fun!

Mark, 2B

*The best thing about my time at EHB was having the Coronation party and end of year celebration. I will miss my friends most. I feel excited about moving to my new school in September. My special memory is of winning against Eaton House The Manor! **Noah, 2C***

The best things are my friends who were very kind. The thing that I will miss most about Eaton House is my friends and teachers. I am very happy about moving to my new school because it is very good at sports, maths and non-verbal reasoning.

Alexandre, 2C

The best thing about EHB is PE. I will miss all of my friends the most, but I feel excited about moving to my new school in September. My special memory is the teachers!

Michael, 2B

GOOD SCHOOLS GUIDE: OVERVIEW

"A bustling world of learning, fun and enjoyment", according to one parent, and we'd certainly agree. Behind its calm and elegant white-stuccoed façade, EHB is a hive of activity, with slightly chaotic but cheerful boys constantly on the go, chatting non-stop as they beetle up and down stairs or to the park and back...

'Creative teaching and learning everywhere you look. We met year 2s writing highly persuasive letters inspired by Greta and the Giants, reception pupils learning to code using colourful keyboards and year 4s plotting treasure maps in maths. We joined a wonderfully giggly reception class making potions in a

earwax and feathers anyone?) to practise their measuring skills, their teacher impressively unfazed by liberally distributed sand and glitter - "I had a good time today" one happy boy avowed.' (Good Schools Guide 2025)

GOOD SCHOOLS GUIDE: ACADEMIC MATTERS

'An unashamedly academic school, parents feel it gets the balance right between stretch and pressure. Nurturing boys' hunger for knowledge and sparking their natural curiosity, it prepares them thoroughly for entrance assessments without stressing them out. "Teaching is out of this world" enthuse parents.' (Good Schools Guide 2025)
